DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Welsch et al (3,358,950) in view of Forrester (5,620,058).

Re - Claim 1: Welsch discloses a rapid deployment system comprising an aircraft at least one tube coupled to the aircraft (see Fig. 1) Forrester discloses every remaining aspect of the present invention and that it is well known to use a flexible tube for the deployment of troops from an aircraft (see Col. 3, lines 57 - 63). It would have been obvious at the time of the invention to one having ordinary skill in the art to include the teachings of Forrester into the device of Welsch to rapidly and safely deploy troops or cargo.

Re - Claims 2-47 are rejected under 35 U.S. C. 103 (a) as being clearly anticipated over Welsch et al in view of Forrester.

3. Claim 48-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Welsch in view of Forrester.

Re - Claim 48: Welsch discloses a method for rapid deployment from aircraft comprising installing a tube. Forrester discloses every remaining aspect

of the present invention and that it is well known to use a flexible tube for the deployment of troops from an aircraft (see Col. 3, lines 57 - 63). It would have been obvious at the time of the invention to one having ordinary skill in the art to include the teachings of Forester into the method of Welsch to rapidly and safely deploy troops or cargo.

Re - Claims 49 - 52 are rejected under 35 U.S. C. 103 (a) as being clearly anticipated over Welsch et al in view of Forrester.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "and/or" is indefinite. This is not a positive limitation because the applicant is not defining the scope of the invention. Is this a limitation or not?

Oath/Declaration

6. It does not identify the mailing or post office address of each inventor. A mailing or post office address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing or post office address should include the ZIP Code designation. The mailing or post office address may be

provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.
